Before and after Cowview

- The amount of actions per 100 cows
- Early detection means less antibiotics, lower costs and better animal welfare

Smart Farming for Europe

Value creation through **P**recision **L**ivestock **F**arming

TODAY

The Use of Cowview

- To find cows late for milking
- To detect cows in heat
- To find cows with low activity
- To supervise behavior that are different from normal

Smart Farming for Europe

Value creation through **P**recision **L**ivestock **F**arming

Dreams and Wishes

- Faster updating and continuously
- More integration with Farm-Management
- More direct information from the Robot
- Updating with Farm-Management continuously
- Integration with the whole Feeding System
